

## What is MePOS® Mobile?

**MePOS® Mobile is a brilliantly designed end to end Mobile Point of Sale Solution**

MePOS® Mobile is the core component of the MePOS® ecosystem of products. Elegant hardware specific tablet and payment device skins connect together and facilitate dual charging via individual clips or docking stations.

## Who can use MePOS® Mobile?

**MePOS® Mobile is designed for everyone from independents to global enterprises**

MePOS® Mobile supports a range of tablets and payment devices. It is a scalable, flexible solution that gives retailers the power to engage with their customers wherever they may be, on the premises or in pop-up and outdoor environments.

## Why buy MePOS® Mobile?

**MePOS® Mobile delivers the future of customer engagement, today**

MePOS® Mobile takes your point of sale far beyond traditional solutions, improving your customers' experience by giving you the power and flexibility to engage with them in new, innovative ways, where and how you choose.

# MePOS® Mobile Datasheet - Key Facts

MePOS®

## Using MePOS® Mobile

- ▶ In store ordering to support omnichannel retail
- ▶ Queue busting
- ▶ Customer information points
- ▶ Customer interaction
- ▶ Data capture
- ▶ Pop ups and concession stands
- ▶ Outdoor events and promotions
- ▶ Table service
- ▶ Floating servers

## Key Features

- ▶ Range of hardware supported
- ▶ Intelligent dual charging
- ▶ Secure charging of multiple units
- ▶ Optional shoulder strap
- ▶ Robust design
- ▶ Available in black and white or custom colours

## Smart Design

MePOS® Mobile comprises a pair of minimalist, stylish tablet and payment device surrounds that connect together to create a fully functioning mobile point of sale, facilitating customer engagement throughout the premises.

As part of the MePOS® ecosystem, MePOS® Mobile can be used alongside the full range of stylish stands and accessories.

MePOS® Mobile has been specially designed to withstand the robust demands of retail and hospitality.

## Intelligent Charging

MePOS® Mobile eliminates the need for devices to be charged using the original charging cables.

MePOS® Mobile charging solutions keep sets of paired devices together during charging, meaning they can be quickly unplugged and deployed.

## Dual Charging Clip

Allows connected tablet and payment device to be charged simultaneously in any location, keeping paired devices together.

## 5 Way Dual Charging Docking Station

Allows up to five connected tablet and payment devices to be charged simultaneously, securely and tidily. Sets of paired devices can be secured using a radial pin lock, which can only be released by a keyholder. The dock itself can be secured to surfaces to help prevent the possibility of theft.

# MePOS® Mobile - Technical Specifications

## Power Input

Clip on charger	12V 2A
5 way charging dock	12V 2A

## Power Output

Clip on charger	5V 2A
5 way charging dock	5V 2A (each pair of conatcts)

## Supported Tablets

Lenovo A10-70 Tab2  
 Lenovo Tab3 10 Business  
 Lenovo ThinkPad 10 Gen2  
 iPad Air 2

## Supported Payment Devices

Miura M010
